PROJECTS

➢ **IMPLEMENTATION OF DISTRIBUTED FILE SYSTEM USING HADOOP**
                                                      [December 2017 - March 2018]

- The Project is based on the Hadoop Framework through Ubuntu Operating System. In this Project, a file with data applied the MapReduce function on it and form the Word Count file as Output in System.

➢ **LIBRARY MANAGEMENT SYSTEM (o-LIB)**   **[April 2020 - May 2020]**

- Under the subject of self-study, I learned HTML, PHP and apply that knowledge to build a web application of library to handle various functions of the Library, Here I used XAMPP Server and MySQL Database.

- ➤ **EXHIBITION ONLINE PLATFORM (ExOP)**   **[September 2020 - December 2020]**
  - • The Project is an Android application of Exhibition in that currently available and upcoming exhibitions events are visible with their particular categories and provide the feature of products that are available for sale or not.

- ➤ **PORTFOLIO SITE**
  - • The main purpose of displaying information digitally is a website, it plays an important role in giving an individual the opportunity to tell their information.
